

## **Brownfields 2017 Assessment Grant Fact Sheet**

### **Plumas County Community Development Commission, CA**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

#### **Assessment Grant**

*\$200,000 for hazardous substances*

EPA has selected the Plumas County Community Development Commission for a brownfields assessment grant. Site-specific hazardous substances grant funds will be used to perform an ecological risk assessment, conduct a soil characterization, and develop cleanup plans for the Crescent Mills, former LP Mill site at 15690 Highway 89 in Crescent Mills. The 28-acre site was formerly a sawmill, operating until its closure in the mid-1980s. Grant funds also will be used to support community outreach activities.
